Request for Permission to take Math 896, Topics in Mathematics

Students must get permission from the Department Head in order to take a reading course under Math 896. Also, a maximum of three credit hours per semester of Math 896 may be taken. Note that Math 899 is a reading course for those students who are working on a master’s thesis, Math 898 is a reading course for those students working on a master’s report, and Math 999 is a reading course for those students who are working on a doctoral thesis. Math 999 can only be taken after the student has passed the qualifying exams and the specialty exam, which together constitute the graduate school’s requirement for a preliminary examination.

Student name (print) _____________________________________________
Instructor name (print) ___________________________________________
Semester and year _______________________________________________
Credits (maximum of 3) __________________________________________
Other classes the student proposes to enroll in for that semester:
