If you missed one of the first three exams with your instructor's permission, you just take that exam's curve off.

======================================

===

July 9: There are typos on the syllabus and tentative schedule:
1. The correct due date for written H.W. 4.3 and Series Solutions on-line is July 28(Thursday) instead of July 26(Tuesday).
2. The Correct due date for Lab report 10 is July 26 (Tuesday) instead of Thursday.
3. The written H.W. assignment for section 4.4 is questions #1,#2,#8.
4. The written H.W. assignment for section 4.7 is questions #1,#4,#13,#17,#20.
5. On tentative schedule, on July 22(Friday), in addition to the written H.W, the on-line assignment
is Radius of Convergence.
I already fixed them on the syllabus and tentative schedule, please check them out.

======================================
===
July 7: Due to the inconsistency of the due dates on the syllabus(July 7) and the tentative schedule(July 8) for the written homework due this week. You can still turn in your written homework(due this week) until Friday (July 8). Thanks,

Xin Tang.

6/14/05:
For the assignment for today, the problems should be 2.3:5,6,8,12,15 instead of section 2.5. In fact there are no problems for section 2.5. Later on if you find something strange about the assignment, please check the tentative schedule to make sure that you will get the right assignment. Thanks.
Lab reports will due by 5:00 on the day as scheduled in the tentative schedule and syllabus.!!

======================================
6/10/05:
Today, I updated the syllabus a little bit:
There is supposed to be a written homework
assignment for section 1.6 as shown by the
tentative schedule, which is missing on the
syllabus. I have put the numbers back to the
syllabus. Please be aware of it and the due
time of it!!
Thanks a lot. Have a nice weekend!
