Today's Date:

Student:

Graduation Date:

Degree(s) and Major(s):

Interviewer(s):

1. What was the main reason you chose K-State?
   
   a. Was scholarship aid a factor?
   
   b. Were there other factors?

2. Why did you major in math?

3. What are your future plans?
   
   a. Do you have a job?
      
      i. At which company will you be working?
   
   ii. What will your job title/position be?

   b. Are you going to graduate school?
      
      i. At which university will you be doing graduate study?

      ii. What will your field of study be?
4. Assessment of Department Student Learning Outcomes:

   R - 2. Do you feel yourself able to compose and explain mathematical proofs and counter examples? Are you able to make logical inferences? What examples or reasons do you have to support your belief?

   b. Mathematical Knowledge.

   K - 1. Do you know the standard facts and algorithms of calculus and differential equations? What examples or reasons do you have to support your belief?

   K - 4. Students will know the standard facts and algorithms of a specialized area of mathematics at a basic level (as defined by the student and the student’s advisor). Which of the following performance measures of K - 4 have you completed or do you plan to complete?

      1) Internship, research experience, or study abroad. When and where?
      2) Teaching internship (for math-education students).
      3) Actuarial exam (for actuarial students). Which ones did you pass?
      4) Mathematical Contest in Modeling.
      5) Putnam exam.
      6) MATH 599 Top/Sightseeing in Mathematics.
      7) 700 level or above course in math or another department.
      8) Presented a paper or poster. When and where?
      9) Won an award or honor. Which ones?
     10) Took the GRE Math Subject Test. How did you do?
5. Were the undergraduate math web pages helpful?

6. Assessment of undergraduate mathematics program.
   a. How well did the math program serve you?
   
   b. Which things were especially helpful?
   
   c. Which things were not done well?
   
   d. Is there anything we should change or add to the program?
   
   e. What is your overall evaluation of the program?

7. Do you have any additional comments?

8. May we publish a brief profile of you and your graduation from K-State on our web page and include some of your pre and post graduation accomplishments as we learn of these?
